

# Developing an IET: Tools & Tips for Success

## JOIN US!

### Developing an IET: Tools and Tips for Success

Participants will experience the process of developing an Integrated Education and Training (IET) in the context of WIOA.

Activities will focus on:

- Planning the IET from start to finish (from creativity to compliance)
- Creating contextualizing AEL lessons with co-learning objectives
- Building and strengthening partnerships
- Addressing unique and local system needs through engaging with proven experts

### Who should attend?

At a minimum, those who will be working together on an existing or potential IET should attend, such as the AEL Director, an AEL IET Instructor, Career Navigator and a Workforce Training Instructor.

### What will I learn from attending?

- 1) Learn how to plan an IET that prepares those in your community with the skills they need to find employment
- 2) Learn strategies for developing strong partnerships and strengthening existing collaborations
- 3) Learn to develop an IET program that complies with WIOA and state guidance
- 4) Learn problem solving strategies and promising practices from your peers.

TALAE Super Session

1.31.18

9:30 a.m. to 4:30 p.m.

[TALAE Conference Web Site](#)

This event will provide hands-on activities to help you re-tool an existing IET or plan and implement a new IET program that meets the needs of your community. Bring questions that need answers.

***About the Presenter:*** Carol Clymer (Ed.D. Curriculum and Instruction) is Co-Director of *Institute for the Study of Adult Literacy and Goodling Institute for Research in Family Literacy at Penn State*. She has over 40 years of experience managing and evaluating programs to improve the education and employment prospects of dislocated, low-income, and/or low-skilled individuals. She has extensive experience developing curriculum and workforce development guides. Carol also directed the California Career Advancement Academies evaluation and was a member of the Urban and Aspen Institutes' evaluation team for the Accelerating Opportunities Initiative. She is a co-author of the *Developing Basic Skills Curriculum for an IET: A Guide for the Pathways to Employment Program*.
