

toggling to and from Curriculum Player and Connect Communities

Several online classes will require you to go back and forth between the curriculum player and Connect Communities. **Please note that if you go back to the PD Portal and re-launch the curriculum player again, it will start the slide over.** Follow these steps to move forward in the online class:

1. During an online class, it may ask you to post in a Community of Practice (also known as Connect Communities). After you submit your post on the discussion board, **hover** over your web browser icon.

2. Then **click** on the window that shows the curriculum player with your online class.

3. The “Next” button on the curriculum player will now be active. **Click** on it to move onto the next slide.
