

TEAMS 6.8.1|Release Date 5/30/25

FIX PARTICIPANT DETAIL PAGE

Purpose

Due to President Trump's Executive Order 14168, learners will be limited to either Male/Female options under 'Sex' in the participant details page effectively removing 'Prefer Not To Answer' as an option. We are also removing 'Participant did not self-identify' as an option under Ethnicity/Race.

We are adding a note to all participant records that have "Prefer Not to Answer" and/or "Participant did not self-identify" listed under Sex/Ethnicity/Race characteristics. The note will be added to the 'Participant Note' page on the participant's record that we were required to update the system characteristic options under Sex/Ethnicity/Race. The note will read as follows:

"Records with 'Participant Did Not Self Identify' in data field 'Sex' and/or 'Race/ethnicity' have been modified to be in compliance with President Trump's Executive Order 14168 and/or subsequent updates to NRS reporting tables."
