Audience:
ABE/GED

Model:
Clocktime

Criteria for Awarding Proxy Hours:
The system tracks the time on task for each activity completed. The time on task for each activity is counted as proxy hours. The system times students out after a preset period of inactivity.

Validation by:
Software developer

Notes and Contact Information:
For more than 40 years, Aztec has been the leader in the application of technology to education, serving markets ranging from Adult Ed to workforce preparation. We have the largest, most comprehensive library of content and resources available including interactive digital software, ePubs, and print. We have curriculum available across the spectrum from non-readers to HSE preparation to workforce and life skills. Whether you need material for TABE or CASAS assessment instruction or HSE and NDEP instruction, we have curriculum created specifically for adult students. In an effort to meet all the needs of our students and provide equitable access, we cover the continuum of learning in both English and Spanish. We offer curriculum in print, through the renown Steck Vaughn brand; ePubs available in the Aztec platform as well as organizational ePubs that work within Canvas, Blackboard, and most other learning management systems; and our extremely popular Aztec interactive software that works in both web-based and LAN environments. Our robust platform allows you to enter all the students you wish to serve without having to constantly manage seats and providing access to all. We have recently added a new credential to our portfolio---an online Pharmacy Technician program that leads to certification. Aztec is the publisher you should think of no matter the need, language, or modality. We have it all available to help you meet your students where they are and move them to where they need to be.
