Notes and Contact Information:

Texas Family Literacy encourages children and adults of all ages to learn together for motivation and effectiveness. Family members set goals together, discuss and choose activities together, do the learning activities together and track each other's progress when they are learning separately. Our learner-centric approach builds agency and data-based decision-making skills. Six modules provide learning activities appropriate for pre-K through adult learners. We provide learning activities in four languages. Based on the science of reading, every learning activity creates a positive step toward reading and writing mastery.
